<http://tulare.k12oms.org/>  
147-150559

BYOD: Bring Your Own Device  
(laptop or tablet to  
access resources)

Curriculum, standards, assessment, instructional strategies, science practices:  
How do we put it all together in a way that makes the science come  
alive for your students?

These sessions are structured to address your questions when you need  
answers most.

- How do you apply the CA Science Framework?
- How do you develop students with a deep understanding of science?
- How do you implement powerful strategies to support all learners?

This four-day series is designed to provide year-long support and  
opportunities to collaborate with other 8th grade teachers to empower  
student science learning.

**Attend the entire series or select individual sessions.**

**Session 1:** Living and Nonliving Things are Made of Atoms - July 18, 2018

**Session 2:** Cycles of Matter - October 12, 2018

**Session 3:** Natural Processes and Human Activities in Earth's  
Ecosystems - January 24, 2019

**Session 4:** Human Activities and Biodiversity in the Changing  
World - March 21, 2019
