## MTSS Community of Practice 2018-2019

The MTSS Community of Practice is gathering to continue the work our teams started in the eight days of training with our CA SUMS leads. This ongoing network is crucial to supporting the building and sustaining of MTSS practices in the Central Valley. During our session, we will participate in a regional networking call via ZOOM facilitated by SWIFT. Topics are to be generated by the network. This will be a time for sharing best practices, discussing barriers, and providing collective support. Following the call, we will continue the conversation in teams focusing on strengths and opportunities within your system.

Together we will work to set equitable conditions for learning for every child by aligning systems that guarantee positive outcomes in academics, behavior and social-emotional learning.
