## A Sixth Grade Series for Creating a Powerful Mathematics Classroom

# Putting It All Together

Curriculum, standards, assessment, instructional strategies, math practices: How do we put it all together in a way that makes the mathematics come alive for your students?

These sessions are structured to address your questions when you need answers most.

- How do you use your curriculum (district adopted or created)?
- How do you develop students with a deep understanding of mathematics?
- How do you implement powerful strategies to support all learners?
- How do you prepare students for the rigor of the SBAC assessments?

This four-day series is designed to provide year-long support and opportunities to collaborate with other 6th grade teachers to empower student math learning.

**Attend the entire series or select individual sessions.**

**Session 1:** Number Operations and Integers (NS) - August 23, 2018

**Session 2:** Ratios, Rates, and Percents (RP) - October 24, 2018

**Session 3:** Expressions and Equations (EE) - January 17, 2019

**Session 4:** Statistics (SP) - February 5, 2019
