A Second Grade Series for Creating a Powerful Mathematics Classroom

Putting It All Together

Curriculum, standards, assessment, instructional strategies, math practices: How do we put it all together in a way that makes the mathematics come alive for your students?

These sessions are structured to address your questions when you need answers most.

- How do you use your curriculum (district adopted or created)?
- How do you develop students with a deep understanding of mathematics?
- How do you implement powerful strategies to support all learners?
- How do you prepare students for the rigor of the SBAC assessments?

This four-day series is designed to provide year-long support and opportunities to collaborate with other 2nd grade teachers to empower student math learning.

Attend the entire series or select individual sessions.

Session 1: Place Value, Addition and Subtraction - (NBT) - August 28, 2018

Session 2: Problem Solving with Word Problems and Strategies to Develop Fluency - (NBT and OA) - October 25, 2018

Session 3: Connecting Measurement and Data with Addition and Subtraction (MD) - January 23, 2019

Session 4: Geometric Understanding (G) - February 28, 2019
