147-184486

BYOD: Bring Your Own Device
(laptop or tablet to
access resources)

Curriculum, standards, assessment, instructional strategies, science practices: How do we put it all together in a way that makes the science come alive for your students?

These sessions are structured to address your questions when you need answers most.

- How do you apply the CA Science Framework?
- How do you develop students with a deep understanding of science?
- How do you implement powerful strategies to support all learners?

This four-day series is designed to provide year-long support and opportunities to collaborate with other 6th grade teachers to empower student science learning.

Attend the entire series or select individual sessions.

Session 1: September 3, 2020 - Systems within Organisms

Session 2: November 17, 2020 - Thermal Energy

Session 3: February 3, 2021 - Water, Weather and Climate

Session 4: March 25, 2021 - Inheritance and Variation of Traits
