

VISALIA TECHNOLOGY WORKSHOPS FALL 2009

Visalia classes are held in the ERS Technology Lab from 4 – 7 p.m.
7000 Doe Ave., Suite A (Corner of Shirk & Doe)

TCOE continues its Technology Workshops . . .

- ❖ All workshops are \$30 per person unless otherwise listed. Payments need to be made payable to TCOE and sent to: TCOE Business Office, PO Box 5091, Visalia, CA 93278-5091. Please be sure to list your **name** and the **Event ID #** on the payment. Payment must be received prior to the workshop and only paid registrants have a guaranteed spot.
- ❖ TCOE uses the Organization Management System (OMS) for all offerings. To browse the calendar, please follow this link: <http://tulare.k12oms.org>. When you decide you would like to register for a workshop, click it on the calendar. Another window pops open and you will need to click the button on the right side to register.
- ❖ Fresno Pacific University offers one unit of professional credit for 15 hours of classes. In order to earn 15 hours, you must take 5 classes. Cost per Professional Development Unit is \$65. More information will be provided in class.
- ❖ **“Kids Too!”** workshops are designed for you to bring up to 2 students for an additional cost of \$10 per student. (Gray Shading)
- ❖ A light dinner, snacks and beverages will be provided.

Date Event ID# Instructor	Title Class Description
11/17/2009 ID #30729 Steve Woods	Adobe Illustrator 1 Tired of the limitation of basic desktop publishing programs? Discover the flexibility that Illustrator offers in creating dynamic flyers, posters and more.
10/6/2009 ID #30715 Steve Woods	Adobe Photoshop 1 Basic introduction to the Adobe Photoshop CS3 Interface, and how to use Photoshop to manipulate and enhance digital images. Image correction, compression for use on the Internet, filters and batch processing will be covered.
11/3/2009 ID #30720 Steve Woods	Adobe Photoshop 2 Building on a basic knowledge of the Adobe Photoshop CS3 Interface, students will be introduced to the concept of layers, and will create a poster for use in their classroom or school. Specialized bevel and embossing, drop shadows and filters will be covered.
11/16/2009 ID #30730 Steve Woods	Adobe Photoshop 3 Building on a basic knowledge of Photoshop layers. Projects with more involved layers concepts will be covered, as well as tips and tricks to enhance your classroom or school-based creations.
10/27/2009 ID #30721 Dr. Glenn Williams	Digital Storytelling Digital storytelling enhances your students' writing by combining pictures, photographs, music, and voice. Learn how to create a quick and easy digital story, and how it can be used to engage your students in the writing process.
9/30/2009 ID #30223 10-26-2009 ID #31087 Dan Roché	ERS Portal Coach Instruction: Orientation This introduction is designed as an overview of the technologies, facilities and online resources available to the forward-thinking teacher or administrator who understands the instructional challenges of making curriculum adapt to the California Standards. It is a presentation of <i>ERS Portal's</i> many features and benefits, and a basic outline of things to come. Teachers who work with students at all levels, whether in remediation, at grade level or in enrichment programs will find a use for the <i>ERS Portal</i> and its many educational opportunities.
10/7/2009 ID #30224 Dan Roché	ERS Portal Coach Instruction: High School Instruction The ERS Portal offers High School teachers the tools they need to point students toward a life-long learning process. With the use of Digital Math, designed to help students pass their High School Exit Exam, and with online reading programs like Tumble Readables to assist in reading comprehension, students will experience the excitement of learning and retaining the knowledge they will accumulate. Learn how to access these programs through the ERS Library and teach these skills to others at your school. As a Portal Coach, you will not only experience the excitement of teaching students, but also the thrill of multiplying your efforts by teaching teachers how to instruct in the use of the ERS Portal.
10/14/2009 ID #30225 Dan Roché	ERS Portal Coach Instruction: English/Language Arts & Mathematics The ERS Portal offers a number ways to create unforgettable lessons that actively engage students in subject matter with a virtual library of incredible media at their fingertips. Using <i>Learn 360</i> and <i>Discovery Education</i> the classroom teacher can use video content correlated to state standards by Academic Benchmarks. Let us help you build or modify your lesson plans to fit California Standards.

10/28/2009 ID #30226 Dan Roché	ERS Portal Coach Instruction: History/Social Science & Science Learn to use an online graphic organizer or a thinking map to help in problem solving. These online tools are essential for the development of lesson plans that your school or the schools of your district can use to collaborate with colleagues over the internet. These tools include <i>Facts on File</i> , <i>Thinkfinity</i> and the <i>World Book Web</i> .
