

HISTORY DAY CODE OF ETHICS

March 12, 2010

1. As a condition of participating in this year's program, we agree to adhere to the rules and regulations as stipulated in the History Day California Contest Guide. Specifically, we agree that the entry submitted for competition was researched and developed during the current school year. In addition, we affirm that all research, design, and development for the entry was student-produced. Because judges sometimes have questions about whether a student has or has not done the work, we ask you to fill out the following certifications.

2. All typing and computer work (word processing, etc.) must be certified. (History Day rules allow for assistance in typing of papers and other written materials.)

Student Certification:

<i>I certify that all work on this History Day project was completed by myself. Exceptions noted. ***</i>			
	Name (print):		Phone:
	Signature:		Date:

Parent/Sponsor Certification:
