

# La Sierra Charter School's TRANSFORMATION

**Partnership Mission:** La Sierra was one of 11 schools awarded throughout California for building seamless transitions to post-secondary institutions and disseminating best practices. CAPP supports partnerships and collaborations that focus on improving the academic preparation and college-readiness of California students and that serve schools with low student participation in institutions of postsecondary education or with a concentration of students from groups underrepresented in postsecondary education.

## Greatest Achievement! SCHOOLWIDE CULTURE TRANSFORMATION

While the students made remarkable growth in various areas the above data indicates the following philosophy: When you change mindsets and address the whole child, the opportunities are endless.

### Achievements

- CAPP demonstration site
- **Schoolwide culture transformation**
- Capacity Building
- CTE Pathways
- Concurrent college enrollment
- Increased community partnerships
- Dissemination of model achievement regionally and statewide
- Increased communication systems
- Increased programs and opportunities
- Increased parent participation
- School to Out of District School pedagogical collaborative partnership
- Teacher to Teacher collaborative lesson studies
