Tulare County Office of Education Announces:

Peña Planetarium offers public shows February 24

**Peña Planetarium in the Tulare County Office of Education Planetarium & Science Center,
11535 Avenue 264, Visalia**

Visalia – The Sam B. Peña Planetarium, operated by the Tulare County Office of Education, has added a second public show this month. On Friday, February 24, the public can attend a showing of *Black Holes: The Other Side of Infinity*.

February 24, 2017 *Black Holes: The Other Side of Infinity*, 6:00 p.m. & 8:00 p.m.

There's a place from which nothing escapes, not even light, where time and space literally come to an end. It's at this point, inside this fantastic riddle, that black holes exert their sway over the cosmos. Zip through otherworldly wormholes, experience the creation of the Milky Way Galaxy, and witness the violent death of a star and subsequent birth of a black hole. ***Please note that a 7:00 p.m. show has been sold-out.***

The Planetarium & Science Center is located at 11535 Avenue 264 in Visalia, on the southwest corner of Mooney Boulevard and Avenue 264. Tickets for all scheduled shows are available at the Planetarium office only after 5:00 p.m. on show days. Tickets are \$4 for adults and \$3 for children 11 and under. Children must be accompanied by an adult. No late seating is offered once the planetarium doors close. For information, call (559) 737-6334.
