Leveraging Artificial Intelligence to Support the ELPAC
(Grades 3-12)

This session will equip educators with the knowledge and skills to effectively use edtech and artificial intelligence tools in planning tasks aligned with the English Language Proficiency Assessments for California (ELPAC).

Participants will gain practical insights into harnessing edtech and artificial intelligence to create engaging, ELPAC-aligned tasks that align to the diverse language learning needs of their students. This professional learning experience aims to empower educators to leverage cutting-edge tools for more effective, personalized, and inclusive English language instruction.

This session is designed for teachers, coaches, and educational leaders seeking innovative ways to enhance language learning experiences for English learners.
