

The Central Valley Opportunity for Inclusive Civic Engagement and Service

Fostering a Culture of Active Citizenship Through Service Learning and Civic Engagement

Join us for a professional learning series designed to equip middle and high school educators and students with the tools, strategies, and frameworks to foster active citizenship in students. These sessions will support the integration of civic engagement and service learning across subject areas and extracurricular programs, with a focus on cultivating informed, reflective, and participatory student leaders.

Through your participation, your school will:

- **Expand access** to the *California State Seal of Civic Engagement* for eligible students.
- **Establish local criteria** that recognize and celebrate civic learning and leadership.
- **Develop or refine a civic engagement plan** that aligns with your school's mission and student needs.
- **Integrate civic learning opportunities** into existing curriculum and programs.
- **Support students in understanding community systems** and their roles within them.
- **Guide students in designing and leading meaningful service projects** that address real-world issues.

Whether you teach a core academic subject, advise a club, or lead a school-wide initiative, this series will help you bring civic learning to life for your students.
