From Curriculum to the Classroom: Effective Planning for High-Quality Math Instruction

This series provides a collaborative community for educators to dive deep into their district-adopted instruction materials in alignment with the 2023 CA Mathematics Framework.

Each session will focus on building educator confidence in implementing their newly adopted curriculum.

Sessions will be designed to equip teachers, coaches, and leaders with a comprehensive roadmap for implementation.

Experiential and Technical Outcomes:

- **Understanding your curriculum design:** Gain a deep, practical grasp of your curriculum's design and how it aligns with the 2023 CA Framework's shifts.
- **Planning curriculum-based instruction:** Collaboratively design student-centered lessons that leverage language and instructional routines to meet the needs of diverse learners.
- **Assessments:** Understand the arc of learning and how data from formative assessments can be used to address student misconceptions in future lessons.
