TCOE & TULARE COUNTY SCHOOL DISTRICTS

Partnering to provide educational, mental health, and behavioral health support for students.

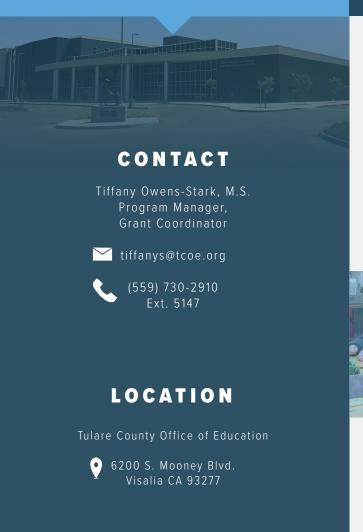

INTERVENTION RESOURCE CLASSROOMS

are county wide partnerships designed to meet the educationally-related mental health needs of our students receiving special education services.

DISTRICT PARTNERSHIPS

are based on the district's student need and willingness to implement mental health stigma reduction and positive behavior supports in their overall school environment.

MORE INFORMATION

A Partnership of the
Tulare County Office of Education
& Tulare County School Districts

Tim A. Hire, County Superintendent of Schools

Schools are where children spend most of each day. While schools are primarily concerned with education, mental health is essential to learning as well as to social and emotional development. Tulare County Office of Education recognizes the importance of emotional health to school success.

- 1 in 5 children suffer from a mental health disorder
- Without treatment, children are at increased risk of school failure

IRC PROGRAM PURPOSE & CORE COMPONENTS

The Intervention Resource Classrooms support students and school districts by creating a comprehensive educational and therapeutic setting. Social skills and skill building are a core component for fostering social and educational success. Through a safe and supportive environment we focus on teaching students the necessary skills to be successful.

Learners in special education of all grades, experiencing a range of challenges, are supported by Tulare County Office of Education. Through an individualized, fluid process, students attend the IRC as needed, with the overarching goal of successful, full inclusion.
